02 GETTING STARTED

Home ownership is the American Dream and you are about to embark on an exciting process. Your home will be one of your largest assets and most likely will appreciate in value over the life of your ownership.

There are a lot of decisions ahead of you. Please use this handbook as a guide to help you throughout this process.

03 ESCROW & CLOSING

OPENING THE ESCROW

After the buyer and seller agree to terms of a sale, the transaction goes into escrow, which can take several weeks (30-45 days or more) to reach closing. Escrow can be opened by the buyer or the seller's real estate agent. The escrow agent and their company act as a neutral third party for serving as custodian for funds and documents, providing a clearing house for payment of demands and performing clerical details for the closing.

What the Escrow Company Does

When the escrow is opened, an order for a preliminary report/commitment is placed with the title company, which shows ownership of a parcel of land and recorded matters that are relative to the property. Then a plan is set for the necessary action and documents required, such as demands for satisfaction of liens, instructions for recording documents and other requirements of the new lender. In most areas, buyers and sellers instructions are prepared for signature from the information gathered.

Escrow Instructions and Your Closing

Your escrow officer or real estate agent will contact both the buyer and seller for an appointment to sign escrow instructions and supporting documents.

Bring a legal form of identification with you, such as a current driver's license, passport or ID card (military or state). At this time you will normally be advised of the amount of money you will need to deposit and/or receive depending on if you are the buyer or seller. When the instructions from all parties have been executed, escrow is ready to close. At that time all required funds have been receipted into escrow, the documents are recorded, funds disbursed and the policy of title insurance is issued.

If you are the buyer, you will be informed about the disbursement of keys by the real estate agent or seller.

If you are the seller, upon receipt of the proper documentation and releases, the escrow officer will disburse the reserved funds, including the seller's payment.

As of October 3, 2015 the closing process has changed.

The Consumer Financial Protection Bureau (CFPB) created the TILA-RESPA Integrated Disclosure (TRID) Rule to improve mortgage disclosure forms to make it easier for consumers to understand the terms of their loans and closing costs. In order to ensure a timely closing, it is more important than ever that you communicate with your lender, real estate agent and escrow officer.

ESCROW PROCESS

For loan applications taken after October 3, 2015 the buyer/consumer must receive the new Closing Disclosure (CD) at least three business days prior to the date the buyer/consumer is scheduled to sign the loan documents.

TRID TERMS

Closing Disclosure - The five-page Closing Disclosure, also referred to as CD, must be provided to the consumer three business days before they close on the loan. The Closing Disclosure details all of the costs associated with their mortgage transaction.

Consummation - Consummation is not the same thing as closing or settlement. Consummation occurs when the consumer becomes legally obligated to the creditor on the loan, not, for example, when the consumer becomes contractually obligated to a seller on a real estate transaction.

Loan Estimate - A three-page Loan Estimate (also called LE) must be provided to the consumer no later than three business days after they submit a loan application for most mortgages. The Loan Estimate provides information about key features, costs and risks of the mortgage loan for which the consumer is applying.

Redisclosure - For covered transactions under the TILA-RESPA Integrated Disclosure (TRID) Rule and under very specific circumstances, the Loan Estimate and/or the Closing Disclosure may be revised and delivered to the consumer.

Three Day Review Period - For covered transactions under the TRID Rule the creditor is generally required to ensure that the consumer (borrower) receives the Closing Disclosure no later than three business days prior to the consummation of the loan.

TOP 10 THINGS CONSUMERS SHOULD KNOW ABOUT THE CLOSING PROCESS

1) *Time is of the Essence*

- To avoid delays or a postponement of your closing, be sure to respond to lender and escrow officer requests immediately.
- Work closely with your lender, real estate agent and escrow officer to avoid delays.

2) *You Have a Choice*

- When it comes to service providers associated with your closing, you have a choice. This includes the company that will close your transaction and most inspectors, just to name a few. In certain areas, the seller will pay for some closing costs and thus will be entitled to select the vendor(s).
- Talk to your lender, real estate agent and escrow officer to obtain additional information about the various service providers and fees.

3) *Protecting your Information – Secured Emails*

- As an additional security measure to protect your non-public personal information, you may receive secured emails from your lender and escrow officer.
- You will need to follow the instructions for retrieving that information (which will likely require you to create an account) and make sure that you return any information through the secured email system.

4) *Loan Estimate (LE)*

- The Loan Estimate (LE) will be sent to you within three days of your loan application. You may receive multiple copies of the LE if there are any changes in circumstance(s).
- The terms provided on the LE will also appear on the Closing Disclosure (CD). Lenders are required to explain any changes in fees on the CD.

5) *Preparing for Closing*

- Approximately 10 - 14 days before you are scheduled to sign your documents you should be prepared to communicate with your lender, real estate agent and escrow officer. It will be important for you to provide your hazard insurance information.
- NOTE: Wiring instructions will be subject to strict verifications to prevent fraud. Discuss this with your closing professionals well in advance.

6) *Closing Disclosure (CD)*

- A closing statement called the Closing Disclosure (CD) will be used for most loan applications taken on and after October 3, 2015. The CD will be sent directly to you (buyer/consumer) and not your real estate agent.
- The CD is designed to make it easy for you to understand the terms of your loan.

7) *Three-Day Review Period*

- THE CLOSING DISCLOSURE (CD) MUST BE DELIVERED TO YOU (BUYER/CONSUMER) AT LEAST THREE BUSINESS DAYS prior to signing the documents.
- If the CD is delivered via email it is important to acknowledge receipt to avoid additional delays.
- The CD may also be mailed seven days in advance and does not require proof of receipt.
- This time allows you to share it with your agent, attorney and/or financial advisor and ask questions or get clarification from your lender about the terms and conditions of your loan.

8) *Lenders Title Insurance Policy*

- Lenders typically require their borrowers to purchase a Lender's Policy of Title Insurance for the purchase loan(s).
- The fees are usually based on the amount of the loan(s).
- A lender's policy protects only the lender's interests should a problem with the title arise.

9) *Owner's Title Insurance Policy*

- Research the value and importance of an Owner's Title Insurance Policy early on in the process of obtaining a loan and closing on the purchase of your home.
- Homebuyers often assume that the Lender's Title Insurance Policy protects them from challenges to their ownership rights in the property being acquired. This is not the case. Instead, the homebuyer's interests are protected by an Owner's Title Insurance Policy. This insurance coverage typically protects against adverse matters such as ownership challenges, errors and omissions in deeds, forgery, and undisclosed heirs, among other things. It also provides coverage for the attorney's fees that arise where legal challenges to your property's ownership occur. Its cost is typically based on the home's total purchase price, and is a one-time fee paid at closing.

10) *Ask Questions*

- This is one of the most important purchases of your life. Do not be afraid to ask questions of your lender, real estate agent and escrow officer.

Consumers are given more time to consider their options because the closing disclosure form is now provided three days before the closing

04 VESTING & TAX GUIDE

Commons Ways to Hold Title

Arizona is a community property state. Property acquired by husband and wife is presumed to be community property unless legally specified otherwise. Title may be held as “Sole and Separate.” If a married person acquires title as sole and separate, his or her spouse must execute a disclaimer deed to avoid the presumption of community property. Parties may choose to hold title in the name of an entity, e.g., a corporation; a limited company; a partnership (general or limited), or a trust. Taking title may have significant tax and legal ramifications; please consult your attorney and/or CPA.

05 TITLE COMMITMENTS

Title Commitments - Some Basics

After months of searching, you've finally found it, your perfect dream home. But is it perfect? Will you be purchasing more than just a beautiful home? Will you also be acquiring liens placed on the property by prior owners? Have documents been recorded that will restrict your use of the property?

The Title Commitment will provide you with the opportunity, prior to purchase, to review matters affecting your property which will be excluded from coverage under your title insurance policy unless removed or eliminated before your purchase. To help you better understand this often bewildering subject, the below are answers to some of the questions most commonly asked about the title commitment.

What is a Title Commitment?

A title commitment is a report prepared prior to issuing a policy of title insurance that shows the ownership of a specific parcel of land, together with the liens and encumbrances thereon which will not be covered under a subsequent title insurance policy.

What role does a Title Commitment play in the real estate process?

A title commitment contains the conditions under which the title company will issue a particular type of title insurance policy.

The commitment lists, in advance of purchase, title defects, liens and encumbrances which would be excluded from coverage if the requested title insurance policy were to be issued as of the date of the commitment. The report may then be reviewed and discussed by the parties to a real estate transaction and their agents.

Thus, a commitment provides the opportunity to seek the removal of items referenced in the report which are objectionable to the buyer prior to purchase.

When and how is the Title Commitment produced?

Shortly after escrow is opened, an order will be placed with Old Republic Title which will then begin the process involved in producing the report.

This process calls for the assembly and review of certain recorded matters relative to both the property and the parties to the transaction. Examples of recorded matters include a deed of trust recorded against the property or a lien recorded against the buyer or seller for an unpaid court award or unpaid taxes.

These recorded matters are listed numerically as "exceptions" in the commitment. They will remain exceptions from title insurance coverage unless eliminated or released prior to the transfer of title.

What should I look for when reading my Title Commitment?

A. You will be interested, primarily, in the extent of your ownership rights. This means you will want to review the ownership interest in the property you will be buying and the description of the property, as well as any claims, restrictions or interests of other people involving the property.

The commitment will note in a statement of vesting the degree, quantity, nature and extent of the owner's interest in the real property. The most common form of interest is "fee simple" or "fee" which is the highest type of interest an owner can have in land.

Liens, restrictions and interests of others which are being excluded from coverage will be listed numerically as "exceptions" in the commitment. These may be claims by creditors who have liens or liens for payment of taxes or assessments. There may also be recorded restrictions which have been placed in a prior deed or contained in what are termed CC&Rs--covenants, conditions and restrictions. Finally, interests of third parties are not uncommon and may include easements given by a prior owner which limit your use of the property. When you buy property you may not wish to have these claims or restrictions on your property. Instead, you may want to clear the unwanted items prior to purchase.

In addition to the limitations noted above, a printed list of standard exceptions and exclusions listing items not covered by your title insurance policy may be attached as an exhibit item to your report. Unlike the numbered exclusions, which are specific to the property you are buying, these are standard exceptions and exclusions appearing in title insurance policies. The review of this section is important, as it sets forth matters which will not be covered under your title insurance policy, but which you may wish to investigate, such as governmental laws or regulations governing building and zoning.

Will the Commitment disclose the complete condition of the title to a property?

No. It is important to note that the commitment is not a written representation as to the condition of title and may not list all liens, defects, and encumbrances affecting title to the land, but merely report the current ownership and matters that the title company will exclude from coverage if a title insurance policy should later be issued.

Is a Commitment the same thing as title insurance?

Definitely not. A commitment is an offer to insure, it is not a report of a complete history of recorded documents relating to the property. A commitment is a statement of terms and conditions of the offer to issue a title insurance policy, not a representation as to the condition of title.

These distinctions are important for the following reasons: first, no contract or liability exists until the title insurance policy is issued; second, the title insurance policy is issued to a particular insured person and others cannot claim the benefit of the policy.

How do I go about clearing unwanted liens and encumbrances?

You will wish to carefully review the commitment. Should the title to the property be clouded, you and your agents will work with the seller and the seller's agents to clear the unwanted liens and encumbrances prior to taking title.

Is an Owner's Policy Worth the Investment?

Title Insurance is based on loss prevention. A typical title search involves searching public records as well as our own Title Plant. No other insurance does this level of due diligence before issuing a policy.

When there is a claim against the title policy it is often due to a title defect that was undetected during the title search. The most common problems are FRAUD and FORGERY. When there is a loss it is usually significant and oftentimes in the hundreds of thousands of dollars.

Some of the Risks Covered By Title Insurance Policy

The following are risks covered by a Homeowner's form of title insurance policy (subject to insuring provisions, exclusions, exceptions and the conditions and stipulations):

- Someone else claims to have rights affecting your title arising out of forgery, fraud or impersonation.
- Someone else owns an interest in your title or has a recorded lien or encumbrance on your title.
- Someone else has rights affecting your title arising out of leases, contracts or options.
- Someone else has an easement on the land or recorded right to limit your use of the land.
- You are forced to correct or remove an existing violation of any covenant, condition or restriction affecting the land.
- Because of an existing violation of a subdivision law or regulation affecting the land:
 - You are unable to obtain a building permit.
 - You are forced to correct or remove the violation.
 - Someone else has a legal right to, and does, refuse to perform a contract to purchase the land, lease it or make a mortgage loan on it.
- You are forced to remove or remedy your existing structures, or any part of them, because any portion was built without obtaining a building permit or because they violate existing zoning law or zoning regulation.
- Your existing improvements made after the policy date, including lawns, shrubbery or trees, are damaged because of the future exercise of a right to use the surface of the land for the extraction development of minerals, water or any other substance.
- Someone else tried to enforce a discriminatory covenant, condition or restriction which is based upon race, color, religion, gender, handicap, familial status or national origin.
- A document upon which your title is based is invalid because it was not properly signed, sealed, acknowledged, delivered or recorded.
- The residence with the address shown is not located on the land.

06 TITLE INSURANCE

What Is Title Insurance?

Title insurance is an agreement to indemnify against damage or loss from a defect in title as evidenced by a policy of title insurance to a specific parcel of real property. Following a search and examination of public records and in exchange for a premium paid, title insurance companies will assume the risk that title to a parcel of real property is as stated to be in the policy of title insurance.

Types of Title Insurance (Policies)

Owner's Policy:

Insures an owner of any type of real property against loss by reason of those matters covered under the policy of insurance for as long as they own the property. There are several versions of each policy. Consult with your Real Estate Professional to determine which policy is best for you.

Lender's Policy:

Insures the priority of the lender's security interest over claims that others may have in the property.

Title Companies – What they handle

Title companies provide services to buyers, sellers, real estate developers, builders, mortgage lenders and others who have an interest in the real estate transaction. Title companies provide assurances that the transfer of title takes place efficiently and that your interests as an insured are protected under the terms and conditions of the policy. Title insurance is different from many other types of insurances (casualty, auto, etc.). These other types of insurances assume risks by providing financial protection for losses arising from an unforeseen future event such as a fire, theft or accident. With title insurance, risks are examined and mitigated before the property changes hands.

Refinancing: Why Lenders Require Title Insurance

Your lender will want to insure that your new loan is protected by title insurance, just as the original lender required. Even if you already purchased a lender's policy, the policy remains in force only during the life of the loan that was insured. So, if you refinance, the old loan is paid off and a new loan is issued with a new title insurance policy. You will not need to purchase a new owner's policy of title insurance.

Frequently Asked Questions About Title Insurance

Q. WHAT DOES TITLE INSURANCE INSURE?

A. Title Insurance offers protection against claims resulting from various defects (as set out in the policy) which may exist in the title to a specific parcel of real property effective on the issue date of the policy. For example, a person might claim to have a deed or lease giving them ownership or the right to possess your property. Another person could claim to hold an easement giving them a right of access across your land. Yet another person may claim that they have a lien on your property securing the repayment of a debt. That property may be an empty lot or it may hold a 50-story office tower. Title companies work with all types of real property.

Q. HOW MUCH CAN I EXPECT TO PAY FOR TITLE INSURANCE?

A. This point is often misunderstood. Although the title company or escrow office usually serves as a meeting ground for closing the sale, only a small percentage of total closing fees are actually for title insurance protection. Your title insurance premium may actually amount to less than one percent of the purchase price of your home and less than ten percent of your total closing costs. The title policy is good for as long as you and your heirs own the property with the payment of only one premium.

Q. WHO WILL PAY FOR TITLE INSURANCE CHARGES, THE BUYER OR THE SELLER?

A. Surprisingly, “who pays” is not uniform. In some areas the buyer will pay while in others the seller will pay. In some places, the seller will pay for the owner’s title policy and the buyer will pay for the lender’s policy. But in every case, the question of who pays closing costs is a matter of agreement between the buyer and seller. Usually this agreement is based on the customary practice in your area.

Q. WHY ARE SEPARATE OWNER’S AND LENDER’S TITLE INSURANCE POLICIES ISSUED?

A. Both you and your lender will want the security offered by title insurance. As the owner, you will want assurances that the home is yours and that you are protected against certain title defects. Your lender will likely want title insurance in order to protect its loan security interest, and may even be required to have a lender’s policy in place in order to sell the loan to secondary market investors.

Q. WHAT ARE MY CHANCES OF EVER USING MY TITLE POLICY?

A. In essence, by acquiring your policy, you derive the important knowledge that recorded matters have been searched and examined so that title insurance covering your property can be issued. Because title insurance companies are risk eliminators, the probability of exercising your right to make a claim is very low. However, claims against your property may not be valid, making the continuous protection of the policy all the more important.

When a title company provides a legal defense against claims covered by your title insurance policy the savings to you for that legal defense alone will greatly exceed the one-time premium.

Q. WHAT IF I AM BUYING PROPERTY FROM SOMEONE I KNOW?

A. You may not know the owner as well as you think you do. People undergo changes in their personal lives that may affect title to their property. People get divorced, change their wills and engage in transactions that limit the use of the property and have liens and judgments placed against them personally for various reasons.

There may also be matters affecting the property that are not obvious or known, even by the existing owner, which a title search and examination seeks to uncover as part of the process leading up to the issuance of the title policy.

Just as you wouldn't make an investment based on a phone call, you shouldn't buy real property without assurances as to your title. Title insurance provides these assurances.

The process of risk identification and elimination performed by the title companies, prior to the issuance of a title policy, benefits all parties in the property transaction.

Title Insurance minimizes the chances that adverse claims might be raised, and by doing so reduces the number of claims that need to be defended or satisfied. This process keeps costs and expenses down for the title company and maintains the traditional low cost of title insurance.

 - 276.
 - 277.
 - 278. (b) **If Seller agrees in writing to correct items disapproved, Seller shall correct the items, complete any repairs in a workmanlike manner and deliver any paid receipts evidencing the corrections and repairs to Buyer three (3) days or _____ days prior to the COE Date.**

An unfulfilled 322. contingency is not a breach of Contract. The parties expressly agree that the failure of any party to comply with the terms and 323. conditions of Section 1d to allow COE to occur on the COE Date, if not cured after a cure notice is delivered pursuant to Section 7a, 324. will constitute a material breach of this Contract, rendering the Contract subject to cancellation.
- 7c. 325. **Alternative Dispute Resolution ("ADR"):** Buyer and Seller agree to mediate any dispute or claim arising out of or relating to this 326. Contract in accordance with the REALTORS® Dispute Resolution System, or as otherwise agreed. All mediation costs shall be paid 327. equally by the parties. In the event that mediation does not resolve all disputes or claims, the unresolved disputes or claims shall 328. be submitted for binding arbitration. In such event, the parties shall agree upon an arbitrator and cooperate in the scheduling of 329. an arbitration hearing. If the parties are unable to agree on an arbitrator, the dispute shall be submitted to the American Arbitration 330. Association ("AAA") in accordance with the AAA Arbitration Rules for the Real Estate Industry. The decision of the arbitrator shall be 331. final and nonappealable. Judgment on the award rendered by the arbitrator may be entered in any court of competent jurisdiction. 332. Notwithstanding the foregoing, either party may opt out of binding arbitration within thirty (30) days after the conclusion of the 333. mediation conference by notice to the other and, in such event, either party shall have the right to resort to court action.
- 7d. 334. **Exclusions from ADR:** The following matters are excluded from the requirement for ADR hereunder: (i) any action brought in the 335. Small Claims Division of an Arizona Justice Court (up to \$3,500) so long as the matter is not thereafter transferred or removed from 336. the small claims division; (ii) judicial or nonjudicial foreclosure or other action or proceeding to enforce a deed of trust, mortgage, or 337. agreement for sale; (iii) an unlawful entry or detainer action; (iv) the filing or enforcement of a mechanic's lien; or (v) any matter that 338. is within the jurisdiction of a probate court. Further, the filing of a judicial action to enable the recording of a notice of pending action 339. ("lis pendens"), or order of attachment, receivership, injunction, or other provisional remedies shall not constitute a waiver of the 340. obligation to submit the claim to ADR, nor shall such action constitute a breach of the duty to mediate or arbitrate.
- 7e. 341. **Attorney Fees and Costs:** The prevailing party in any dispute or claim between Buyer and Seller arising out of or relating to this 342. BUYER ADVISORY

A Resource for Real Estate Consumers

Provided by the Arizona Association of REALTORS® and the Arizona Department of Real Estate

A real estate agent is vital to the purchase of real property and can provide a variety of services in locating a property, negotiating the sale, and advising the buyer.

A real estate agent is generally not qualified to discover defects or evaluate the physical condition of property; however, a real estate agent can assist a buyer in finding qualified inspectors and provide the buyer with documents and other resources containing vital information about a prospective property.

This Advisory is designed to make the purchase of real property as smooth as possible. Some of the more common issues that a buyer may decide to

investigate or verify concerning a property purchase are summarized in this Advisory. Included in this Advisory are:

1. Common documents a buyer should review;
2. Physical conditions in the property the buyer should investigate; and
3. Conditions affecting the surrounding area that the buyer should investigate.

In addition, a buyer must communicate to the real estate agents in the transaction any special concerns the buyer may have about the property or surrounding area, whether or not those issues are addressed in this Advisory.

Reminder:

This Advisory is supplemental to obtaining professional property inspections. Professional property inspections are absolutely essential: there is no practical substitute for a professional inspection as a measure to discover and investigate defects or shortcomings in a property.

Please Note:

The property may be subject to video and/or audio surveillance. Buyer should therefore exercise caution and not discuss features or pricing while in the home.

Section 1

COMMON DOCUMENTS A BUYER SHOULD REVIEW

The documents listed below may not be relevant in every transaction, nor is the list exhaustive. Unless otherwise stated, the real estate broker has not independently verified the information contained in these documents.

1 Purchase Contract

Buyers should protect themselves by taking the time to read the Arizona REALTORS® Residential Resale Real Estate Purchase Contract and understand their legal rights and obligations before they submit an offer to buy a property.

[Residential Resale Real Estate Purchase Contract](#)
(Arizona REALTORS® Residential Resale Purchase Contract)

Contingency Waivers

The Purchase Contract contains numerous contingencies, including, but not limited to, the loan contingency, the inspection contingency, and the appraisal contingency. Should a buyer elect to waive any such contingencies in conjunction with their purchase offer, adverse consequences may result that place buyer at risk of losing their Earnest Money or incurring monetary damages if buyer decides not to purchase the property after their offer is accepted. Before offering to waive any contractual contingencies, buyers should weigh the risks and consult with independent legal counsel.

2 MLS Printout

A listing is a contractual agreement between the seller and the listing broker and may authorize the broker to submit information to the Multiple Listing Service (MLS). The MLS printout is similar to an advertisement. Neither the listing agreement nor the printout is a part of the purchase contract between the buyer and seller. The information in the MLS printout was probably secured from the seller, the builder, or a governmental agency, and could be inaccurate, incomplete or an approximation. Therefore, the buyer should verify any important information contained in the MLS.

3 The Subdivision Disclosure Report (Public Report)

A Subdivision Disclosure Report (Public Report) is intended to point out material information about a subdivision. Subdividers (any person who offers for sale or lease six or more lots in a subdivision or who causes land to be divided into a subdivision) are required to give buyers a Public Report. Read the Public Report before signing any contract to purchase a property in a

subdivision. Although some of the information may become outdated, subsequent buyers can also benefit from reviewing the Public Report. Public Reports dating from January 1, 1997, are available on the Arizona Department of Real Estate (ADRE) website.

<https://services.azre.gov/publicdatabase/SearchDevelopments.aspx>
(ADRE Search Developments)

<https://azre.gov/consumers/property-buyers-checklist-home-or-land>
(ADRE Property Buyer's Checklist)

ADRE does not verify the information in the Public Report. Therefore, the Report could be inaccurate, so it should be verified by the buyer.

4 Seller's Property Disclosure Statement (SPDS)

Most sellers provide a SPDS. This document poses a variety of questions for the seller to answer about the property and its condition. The real estate broker is not responsible for verifying the accuracy of the items on the SPDS; therefore, a buyer should carefully review the SPDS and verify those statements of concern.

A seller's disclosure obligation remains even if the buyer and seller agree that no Seller's Property Disclosure Statement will be provided.

<https://bit.ly/3HDnA0u> (AAR Sample SPDS)
<http://www.azre.gov/PublicInfo/PropertyBuyerChecklist.aspx>
(ADRE Property Buyer's Checklist)

5 Covenants, Conditions and Restrictions (CC&Rs)

The CC&Rs are recorded against the property and generally empower a homeowner's association to control certain aspects of property use within the development. By purchasing a property in such a development, the buyer agrees to be bound by the CC&Rs. The association, the property owners as a whole, and individual property owner can enforce the CC&Rs. It is essential that the buyer review and agree to these restrictions prior to purchasing a property.

<http://www.azre.gov/PublicInfo/PropertyBuyerChecklist.aspx>
(ADRE Property Buyer's Checklist)

It is the law of this state that any covenants or restrictions that are based on race, religion, color, handicap status or national origin are invalid and unenforceable. A.R.S. 32-2107.01

<https://www.aaronline.com/arizona-deed-restrictions/>
(Arizona Deed Restrictions webpage)

ADRE ADVISES: "Read the deed restrictions, also called CC&Rs (covenants, conditions and restrictions). You might find some of the CC&Rs are very strict." Buyers should consult legal counsel if uncertain of the application of particular provisions in the CC&Rs.

6 Homeowners Association (HOA) Governing Documents

In addition to CC&Rs, HOAs may be governed by Articles of Incorporation, Bylaws, Rules and Regulations, and often architectural control standards. Read and understand these documents. Also, beware that some HOAs impose fees that must be paid when the property is sold, so ask if the purchase of the property will result in any fees. Condominium and planned community HOAs are regulated by Arizona statutes. They are not under the jurisdiction of the Department of Real Estate (ADRE). Nonetheless, the Arizona's Homeowner's Association Dispute Process is administered by the ADRE.

<http://bit.ly/2e8jdM3> (A.R.S. 33-1806)
<http://bit.ly/1rCq9kd> (ADRE HOA Information)

7 HOA Disclosures

If purchasing a resale home in a condominium or planned community, the seller (if fewer than 50 units in the community) or the HOA (if there are 50 or more units) must provide the buyer with a disclosure containing a variety of information.

<http://bit.ly/2e8jdM3> (A.R.S. 33-1806)

8 Community Facilities District

Community Facilities Districts (CFDs) are special taxing districts that use bonds for the purpose of financing construction, acquisition, operation and maintenance of public infrastructure that benefits the real property owners comprising the CFD members. Roadways, public sewer, utility infrastructure and public parks are examples of the types of public infrastructure paid for by CFDs. CFDs have a Governing Board that may be the City Council acting as the board or a stand-alone board. Any member of a CFD may request disclosures from this board. Questions to ask include: the amount still owed and how many more payments are left in order to pay off the CFD for the property. It is important that you review the Detailed Property Tax Statement which will show the current amount due to the CFD. CFDs are most commonly found on the property's detailed property tax statement from the County Tax Assessor. The local municipality or county can also be a source of CFD information.

9 Title Report or Title Commitment

The title report or commitment contains important information and is provided to the buyer by the title/escrow company or agent. This report or commitment lists documents that are exceptions to the title insurance (Schedule B Exceptions). Schedule B Exceptions may include encumbrances, easements, and liens against the property, some of which may affect the use of the property, such as a future addition or swimming pool. Make sure you receive and review all of the listed documents. Questions about the title commitment and Schedule B documents may be answered by the title or escrow officer, legal counsel, or a surveyor.

<https://www.homeclosing101.org/> (American Land Title Association)
<https://bit.ly/34KkCaQ> (CFPB - What is title insurance?)

10 Loan Information and Documents

Unless a buyer is paying cash, the buyer must qualify for a loan in order to complete the purchase. A buyer should complete a loan application with a lender before making an offer on a property if at all possible and, if not, immediately after making an offer. It will be the buyer's responsibility to deposit any down payment and ensure that the buyer's lender deposits the remainder of the purchase price into escrow prior to the close of escrow date. Therefore, make sure you get all requested documentation to your lender as soon as possible.

11 Home Warranty Policy

A home warranty [policy] is a service contract that typically covers the repair and/or replacement costs of home appliances and major systems such as heating, cooling, plumbing, and possibly other components of a home that fail due to normal usage and age. Coverage varies depending on the policy. Be aware that pre-existing property conditions are generally not covered. A home warranty may be part of the sale of the home. If so, buyers should thoroughly read the home warranty contract to understand coverage, limitations, exclusions, and costs associated with the policy.

12 Affidavit of Disclosure

If the buyer is purchasing five or fewer parcels of land (whether improved or vacant), other than subdivided land, in an unincorporated area of a county, the seller must furnish the buyer with an Affidavit of Disclosure.

13 Lead-Based Paint Disclosure Form

If the home was built prior to 1978, the seller must provide the buyer with a lead-based paint disclosure form. Buyer is further advised to use certified contractors to perform renovation, repair or painting projects that disturb lead-based paint in residential properties built before 1978 and to follow specific work practices to prevent lead contamination.

14 Professional Inspection Report

The importance of having a property inspected by a professional inspector cannot be over-emphasized. An inspection is visual physical examination, performed for a fee, designed to identify material defects in the property.

The inspector will generally provide the buyer with a report detailing information about the property's condition. The buyer should carefully review this report with the inspector and ask the inspector about any item of concern. Pay attention to the scope of the inspection and any portions of the property excluded from the inspection.

15 County Assessors/Tax Records

The county assessor's records contain a variety of valuable information, including the assessed value of the property for tax purposes and some of the physical aspects of the property, such as the reported square footage. The date-built information in the assessor's records can be either the actual or effective/weighted age if the residence has been remodeled. All information on the site should be verified for accuracy.

Section 2

COMMON PHYSICAL CONDITIONS IN THE PROPERTY A BUYER SHOULD INVESTIGATE

Because every buyer and every property are different, the physical property conditions requiring investigation will vary.

1 Repairs, Remodeling and New Construction

The seller may have made repairs or added a room to the property. The buyer should feel comfortable that the work was properly done or have an expert evaluate the work. Request copies of permits, invoices or other documentation regarding the work performed.

USE OF LICENSED CONTRACTORS

A contractor's license is required for work performed on a property unless the aggregate contract price, including labor and material, is less than \$1,000, the work performed is of a "casual or minor nature," and no building permit is required. An unlicensed property owner may also perform work themselves if the property is intended for occupancy solely by the owner. If, however, the property is listed or offered for sale or rent within one year of the completed work, it is considered prima facie evidence that the owner performed the work for purposes of sale or rent.

Owners of property who are acting as developers, who improve structures or appurtenances to structures on their property for the purpose of sale or rent, and who contract with a licensed general contractor must identify the licensed contractors' names and license numbers in all sales documents.

2 Square Footage

Square footage on the MLS printout or as listed by the county assessor's records is often only an estimate and generally should not be relied upon for the exact square footage. An appraiser or architect can measure the property's size to verify the square footage.

If the square footage is important, you should have it confirmed by one of these experts during the inspection period in a resale transaction and prior to executing a contract on a new home transaction.

<https://difi.az.gov/industry/RealEstateAppraisers> (Licensed Real Estate Appraisers)

3 Roof

If the roof is 10 years old or older, a roof inspection by a licensed roofing contractors highly recommended.

www.azroofing.org (Arizona Roofing Contractors Association)
<https://roc.az.gov/before-hire> (Before you Hire a Contractor)

4 Swimming Pools and Spas

If the property has a pool or a spa, the home inspector may Exclude the pool or spa form the general inspection so an inspection by a pool or spa company may be necessary.

<https://www.aaronline.com/2010/10/27/pool-barrier-law-contact-information/> (AAR-Pool Barrier Laws & Information)
[36-1681 - Pool enclosures: requirements; exceptions; enforcement \(azleg.gov\)](https://www.azleg.gov) (A.R.S. 36-1681 Swimming Pool Enclosures)

5 Septic and Other On-Site Wastewater Treatment Facilities

If the home is not connected to a public sewer, it is probably served by an on-site wastewater treatment facility (conventional septic or alternative system). A qualified inspector must inspect any such facility within six months prior to transfer of ownership. For information on current inspection and transfer of ownership requirements, contact the specific county environmental/health agency where the property is located or the Arizona Department Environmental Quality (ADEQ).

<https://azdeq.gov/notice-transfer-and-inspection-onsite-wastewater> (ADEQ - AZ Statewide Inspection Program File a Notice of Transfer Online)

6 SEWER

Even if the listing or SPDS indicates that the property is connected to the city sewer, a plumber, home inspector, or other professional should verify it. Some counties and cities can perform this test as well.

7 Water/Well Issues

The property may receive water from a municipal system, a private water company, or a well. You should investigate the availability and quality of the water to the property, as well as the water provider. A list of Arizona's water companies is available at the Arizona Corporation Commission.

<https://www.azcc.gov/utilities/water>
(Arizona Corporation Commission-Utilities Water)
<https://new.azwater.gov/aaws/statutes-rules>
(Assured and Adequate Water Supply)

Adjudications: Arizona is undertaking several Stream Adjudications, which are court proceedings to determine the extent and priority of water rights in an entire river system.

For information regarding water uses and watersheds affected by these adjudications, and the forms upon sale of the property, visit the Department of Water Resources online.

<https://new.azwater.gov/adjudications>

CAGRDs: The Central Arizona Groundwater Replenishment District (CAGRD) functions to replenish groundwater used by its members, individual subdivisions and service areas of member water providers. Homeowners in a CAGRD pay an annual assessment fee which is collected through the county property tax process based the amount of ground water served to member homes.

www.cagrd.com
(Central Arizona Ground Water Replenishment District)

8 Soil Problems

The soil in some areas of Arizona has “clay-like” tendencies, sometimes referred to as “expansive soil.”

Other areas are subject to fissure, subsidence and other soil conditions. Properties built on such soils may experience significant movement causing a major problem.

If it has been disclosed that the property is subject to any such soil conditions or if the buyer has any concerns about the soil condition or observes evidence of cracking, the buyer should secure an independent assessment of the property and its structural integrity by a licensed, bonded, and insured professional engineer.

9 Previous Fire/Flood

If it is disclosed there has been a fire or flood on the property, a qualified inspector should be hired to advise you regarding any possible future problems as a result of the fire or flood damage and/or any subsequent repairs. For example, if the property was not properly cleaned after a flood, mold issues may result. Your insurance agent may be able to assist you in obtaining information regarding fire, flood, or other past damage to the property.

10 Pests

Cockroaches, rattlesnakes, black widow spiders, scorpions, termites and other pests are common in parts of Arizona. Fortunately, most pests can be controlled with pesticides.

Scorpions: Scorpions, on the other hand, may be difficult to eliminate. If buyer has any concerns or if the SPDS indicates the seller has seen scorpions or other pests on the property, seek the advice of a pest control company.

Bed Bugs: Infestations are on the rise in Arizona and nationally.

Roof Rats: Roof Rats have been reported in some areas by Maricopa County Environmental Services.

Termites: Consumer Information is available from the Arizona Department of Agriculture.

Bark Beetles: Bark beetles have been reported in some forested areas.

11 Endangered & Threatened Species

Certain areas in the state may have issues related to federally listed endangered or threatened species that may affect land uses. Further information may be obtained on the U.S. Fish and Wildlife website or by contacting the appropriate planning/development service department.

[Arizona Ecological Services Field Office | U.S. Fish & Wildlife Service \(fws.gov\)](#)

(Arizona Ecological Services) (Arizona Endangered Species) _

12 Death and Felonies on the Properties

Arizona law states that sellers and real estate licensees have no liability for failure to disclose to a buyer that the property was ever the site of a natural death, suicide, murder or felony.

This information is often difficult to uncover; however, the local law enforcement agency may be able to identify incidents related to a property address.

<http://bit.ly/2lo53MZ> (A.R.S. § 32-2156)

13 Indoor Environmental Concerns

Attention has been given to the possible health effects of mold in homes, apartments and commercial buildings. Certain types of molds may cause health problems in some people while triggering only common allergic responses in others.

Mold is often not detectable by a visual inspection. To determine if the premises you are purchasing, or leasing contains mold or airborne health hazards, you may retain an environmental expert to perform an indoor air quality test. This is particularly important if any of the inspection reports or disclosure documents indicate the existence of past or present moisture, standing water, visible water stains, or water intrusion in the Premises.

The Arizona Department of Health Services, Office of Environmental Health, states:

“If you can see mold, or if there is an earthy or musty odor, you can assume you have a mold problem.”

Imported Drywall: There have been reports of problematic drywall, produced in China, used in Arizona homes. Residents in homes with problem drywall report health issues such as respiratory irritation, and other problems such as copper corrosion and sulfur odors. Visit the Consumer Product Safety Commission website for more information.

Radon Gas and Carbon Monoxide: Radon gas and carbon monoxide poisoning are two of the more common and potentially serious indoor air quality (IAQ) concerns. Both of these concerns can be addressed by the home inspector, usually for an additional fee. For information on radon levels in the state, visit Arizona Radiation Regulatory Agency online.

Drug labs: Residual contamination arising from the illicit manufacture of methamphetamine and other drugs carried out in clandestine drug laboratories presents a serious risk of harm to human and environmental health.

Other: For information on other indoor environmental concerns, the EPA has a host of resource materials and pamphlets online.

14 Property Boundaries

If the property boundaries are of concern, a survey may be warranted. For example, a survey may be advisable if there is an obvious use of property by others, i.e., a well-worn path across a property and/or parked cars on the property or fences or structures of adjacent property owners that appear to be built on the property. For more information, visit the Arizona Professional Land Surveyors online. A search for surveyors may be found online at the Board of Technical Registration.

https://www.azpls.org/secure/find_surveyor.asp

(AZ BTR Land Surveyors)

15 Flood Insurance/Flood Plain Status

Your mortgage lender may require you to purchase flood insurance in connection with your purchase of the property. The National Flood Insurance Program provides for the availability of flood insurance and established flood insurance policy premiums based on the risk of flooding in the area where properties are located. Changes to the federal law (The Biggert-Waters Flood Insurance Reform Act of 2012 and the Homeowner Flood Insurance Affordability Act of 2014, in particular) will result in changes to flood insurance premiums that are likely to be higher, and in the future, may be substantially higher, than premiums paid for flood insurance prior to or at the time of sale of the property. As a result, purchasers of property should not rely on the premiums paid for flood insurance on the property previously as an indication of the premiums that will apply after completion of the purchase. In considering purchase of the property, you should consult with one or more carriers of flood insurance for a better understanding of flood insurance coverage, current and anticipated future flood insurance premiums, whether the prior owner's policy may be assumed by a subsequent purchase of the property, and other matters related to the purchase of flood insurance for the property. If community floodplain information is not available for a specific property, and in order to obtain flood insurance, it may be necessary to have an elevation survey and obtain an elevation certificate. This is necessary to determine a properties insurability and premium rate. You may also wish to contact the Federal Emergency Management Agency (FEMA) for

more information about flood insurance as it relates to the property.

16 Insurance (Claims History)

Many factors affect the availability and cost of homeowner's insurance. Property owners may request a five-year claims history from their insurance company, an insurance support organization or consumer reporting agency.

17 Other Property Conditions

Plumbing: Check functionality.

Cooling/Heating: Make sure the cooling and heating systems are adequate. If it is important to you, hire a qualified heating/cooling inspector.

CONDITIONS AFFECTING THE AREA SURROUNDING THE PROPERTY THE BUYER SHOULD INVESTIGATE

Every property is unique; therefore, important conditions vary.

Environmental Concerns

It is often very difficult to identify environmental hazards. The Arizona Department of Environmental Quality (ADEQ) website contains environmental information regarding the locations of open and closed landfills (Solid Waste Facilities), wildfire information, as well as air and water quality

information, as well as air and water quality information (and more).

4 Freeway Construction and Traffic Conditions

Although the existence of a freeway near the property may provide highly desirable access, sometimes it contributes to undesirable noise. To search for roadway construction and planning, visit the Arizona Department of Transportation (ADOT) website.

Crime statistics, an imperfect measurement at best, provide some indication of the level of criminal activity in an area.

<https://communitycrimemap.com/> (Crime Statistics - All Arizona Cities)

6 Sex Offenders

Since June 1996, Arizona has maintained a registry and community notification program for convicted sex offenders. Prior to June 1996, registration was not required, and only the higher-risk sex offenders are on the website. The presence of a sex offender in the vicinity of the property is not a fact that the seller or real estate broker is required to disclose.

7 Forested Areas

Life in a forested area has unique benefits and concerns. As with other natural disasters that affect the United States in any given year including flooding, tornados, hurricanes and earthquakes, having information regarding wildfire risk will be crucial for Buyers here in the Southwest. To get the most up to date information on the community you are seeking to purchase in, search by city name, zip code and/or contact county/city fire authority for more information on issues particular to a community.

8 Military and Public Airports

The legislature has mandated the identification of areas in the immediate vicinity of military and public airports that are susceptible to a certain level of noise from aircraft. The boundaries of these areas have been plotted on maps that are useful in determining if a property falls within one of these areas. The maps for military and public airports may be accessed on the Arizona Department of Real Estate (ADRE) website. Additionally, the boundaries of military and public airports in Maricopa County may be viewed on the county website. These maps are intended to show the area subject to a preponderance of airport-related noise from a given airport. Periodic over-flights that may contribute to noise cannot usually be determined from these maps.

Vacant land or lots may be for sale within areas of high noise or accident potential zones. Because the zoning of these lots may conflict with the buyer's ability to develop the property, the buyer should verify whether development is prohibited Zoning regulations for these areas, may be found at A.R.S.§28-8481.

ADRE ADVISES:

"Call the school district serving the subdivision to determine whether nearby schools' area accepting new students. OTHER METHODS OF GETTING INFORMATION ABOUT A PROPERTY

Drive Around the Neighborhood

Buyers should always drive around the neighborhood, preferably on different days at several different times of the day and evening, to investigate the surrounding area.

Investigate Your Surroundings

Talk to the Neighbors

Neighbors can provide a wealth of information. Buyer should always talk to the surrounding residents about the neighborhood and the history of the property the buyer is considering for purchase.

RESOURCES

Market Conditions Advisory

The real estate market is cyclical and real estate values go up and down. The financial market also changes, affecting the terms on which a lender will agree to loan money on real property. It is impossible to accurately predict what the real estate or financial market conditions will be at any given time.

The ultimate decision on the price a buyer is willing to pay and the price a seller is willing to accept for a specific property rest solely with the individual buyer or seller. The parties to a real estate transaction must decide on what price and terms they are willing to buy or sell considering market conditions, their own financial resources and their own unique circumstances.

The parties must, upon careful deliberation, decide how much risk they are willing to assume in a transaction. Any waiver of contingencies, rights or warranties in the Contract may have adverse consequences. Buyer and seller acknowledge that they understand these risks.

Buyer and Seller assume all responsibility should the return on investment, tax consequences, credit effects, or financing terms not meet their expectations. The parties understand and agree that the Broker(s) do not provide advice on property as an investment. Broker(s) are not qualified to provide financial, legal, or tax advice regarding a real estate transaction. Therefore, Broker(s) makes no representation regarding the above items. Buyer and seller are advised to obtain professional tax and legal advice regarding the advisability of entering into this transaction.
